HANDLE MY SADDLE

integrated handle and light

IT. La maniglia integrata allo scafo nel modello innovativo di Selle Bassano, anche con luce Led integrata rende facile, veloce ed intuitiva la presa della bici durante le manovre piedi a terra e la messa in cavalletto, sia esso laterale o posteriore. Praticamente indispensabile nelle E-Bike sempre più diffuse dato il loro peso superiore rispetto ad una bici normale.

Una caratteristica che rende unica l'idea, maniglia più luce.

EN. The handle integrated into the hull in the innovative model of Selle Bassano, also with integrated LED light, makes gripping the bike easy, fast and intuitive during foot-on-the-ground maneuvers and placing it on the stand, either side or rear. Practically indispensable in the increasingly popular E-Bikes given their higher weight than a normal bike.

A feature that makes the idea unique, handle more light.

DE. Der in den Rumpf integrierte Griff des innovativen Modells von Selle Bassano, ebenfalls mit integriertem LED-Licht, ermöglicht ein einfaches, schnelles und intuitives Greifen des Fahrrads bei Manövern mit dem Fuß auf dem Boden und das Abstellen auf dem Ständer, entweder seitlich oder hinten. In den immer beliebter werdenden E-Bikes aufgrund ihres höheren Gewichts als ein normales Fahrrad praktisch unverzichtbar.

Ein Merkmal, das die Idee einzigartig macht, mehr Licht zu handhaben.

3ZONE

COMFORTPLUS

IT. Durante la pedalata , in base all'inclinazione del corpo, il peso sulla sella viene distribuito in quantità e posizioni diverse. Grazie alla tecnologia 3-ZONE Selle Bassano offre un prodotto in grado di assorbire questi pesi in ogni situazione, dalla pedalata tranquilla a quella sportiva.

EN. The body inclination of the rider, while riding the bicycle, could be different and so different is also the distribution of the weights on the saddle. Thanks to the 3-ZONE technology, Selle Bassano offers a product that could absorb the different weights in every situation: both with comfortable and sports pedalling.

DE. W ährend der Fahrt, der Neigung des K roers entsprechend, wird das Gewicht auf dem Sitz je nach Position verlagert. Dank 3-Zonen-Comfort-Plus-Technologie bietet Selle Bassano ein Produkt, das die verschiedenen Gewichte in jeder Situation - von der ruhigen bis zur sportlichen Fahrt - ausgleichen kann.

3ZONE COMFORT PLUS

FEEL
ELECTRIC

E-BIKEapproved

IT. Feel, è la nuova linea di modelli, dedicata ai biker di bici elettriche, pensata da Selle Bassano. Feel risponde alle esigenze del moderno e-rider in termini di: maggiore comfort di pedalata, maggiore leggerezza e sicurezza. La nuova gamma GT, nelle sue diverse versioni è il risultato delle ricerche interne in termini di ergonomia e design. La nuova sottoscocca della sella, pensata per facilitare la presa della bici (con appositi spazi ergonomici per le dita) evitando così di appesantire o aumentare gli ingombri della sella. Feel però, oltre all'ergonomia e al comfort, non dimentica la sicurezza dell'e-rider. Sono disponibili degli adesivi catarinfrangenti da apporre negli appositi spazi della sottoscocca per aumentare la visibilità specialmente nelle ore crepuscolari. Il riconosciuto e affermato 3Zone Comfort Plus, è stato applicato a questa nuova geometria, al fine di offrire il massimo rispetto alla leggerezza.

EN. *Feel, is the new line of models, dedicated to electric bike bikers, designed by Selle Bassano. Feel meets the needs of the modern e-rider in terms of: greater pedaling comfort, greater lightness and safety. The new GT range, in its various versions, is the result of internal research in terms of ergonomics and design. The new underbody of the saddle, designed to facilitate the grip of the bike (with special ergonomic spaces for the fingers) thus avoiding weighing down or increasing the dimensions of the saddle. Feel, however, in addition to ergonomics and comfort, does not forget the safety of the e-rider. Reflective stickers are available to be affixed in the appropriate spaces of the underbody to increase visibility, especially in the twilight hours. The recognized and established 3Zone Comfort Plus has been applied to this new geometry, in order to offer the maximum respect to lightness.*

DE: *Feel ist die neue Modelllinie für E-Bike-Fahrer, die von Selle Bassano entworfen wurde. Feel erfüllt die Bedürfnisse des modernen E-Fahrers in Bezug auf: mehr Tretkomfort, mehr Leichtigkeit und Sicherheit. Die neue GT-Reihe in ihren verschiedenen Versionen ist das Ergebnis interner Forschung in Bezug auf Ergonomie und Design. Der neue Unterboden des Sattels, der entwickelt wurde, um den Halt des Fahrrads zu erleichtern (mit speziellen ergonomischen Aussparungen für die Finger), wodurch ein Beschweren oder Vergrößern des Sattels vermieden wird. Haptik vergisst aber neben Ergonomie und Komfort nicht die Sicherheit des E-Bikes. Zur Erhöhung der Sichtbarkeit, insbesondere in der Dämmerung, stehen reflektierende Aufkleber zur Verfügung, die an den entsprechenden Stellen des Unterbodens angebracht werden können. Der anerkannte und etablierte 3Zone Comfort Plus wurde auf diese neue Geometrie angewendet, um der Leichtigkeit den größtmöglichen Respekt zu zollen.*
